IGNITE minds
and **ILLUMINATE**
paths.”

ABOUT US

Newstone Rwanda stands as Rwanda's premier source for premium tiles and architectural surface solutions. We are the official representative of **Modern Tiles**, offering a comprehensive range of high-quality ceramic and porcelain tiles, pavers, cladding, and aluminum profiles. We engineer our products for long-lasting performance and contemporary aesthetics, making them ideal for residential, commercial, and large-scale infrastructure projects across the nation. Every collection we offer combines refined design with proven durability.

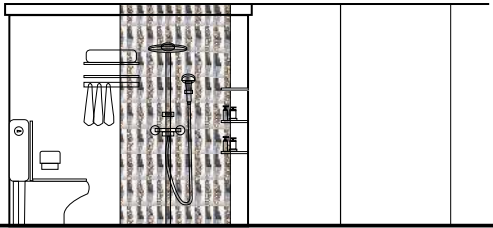

APPLICATION AREA

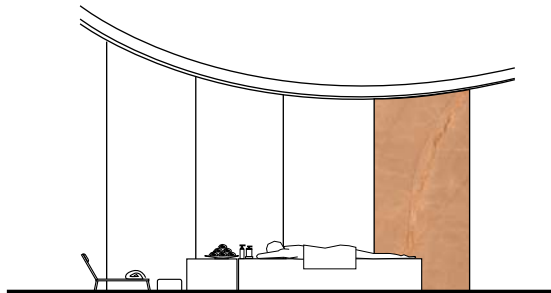

FLOOR

Our Tiles are engineered to offer a versatile and dynamic flooring solution that goes far beyond the static, traditional options. These surfaces can be applied to floors, allowing for real-time customization, stunning visual effects, and practical benefits.

Despite their artistic nature, Digital Tiles are built to withstand the demands of the bathroom environment. They are water-resistant, scratch-resistant, and easy to clean, ensuring they retain their beauty and functionality for years to come.

BATHROOMS

WALL

With our spectrum of Digital Tiles, walls are more than just barriers; they are the canvases of infinite possibilities.

FEATURES
